

Edward **Vinson** Plants Ltd
Soft fruit Propagators and Breeders

EVIE 3 Everbearer Strawberry Variety

Currently successfully trialled by BerryWorld growers. **Evie 3** was selected in 1999 and noted for its earliness. This picture was taken on the longest day and shows extremely good yield potential for July. Flowers are well displayed above the leaf canopy and as a consequence fruits are easy to pick.

Customer Satisfaction is paramount; please talk to us about your specific requirements
